HISTORY

FIBERGLASS SHEEP ESTABLISHED IN 2007

1877

John Arden and Joseph Tweedy introduced sheep ranching in 1877. Agriculture, ranching, and later the oil and gas industry became the most important factors in the economy. Wool growers, cattle ranchers, and the railroads combined to make San Angelo one of the leading cattle markets in Texas, the largest sheep market in the United States, and one of the leading inland wool and mohair markets in the nation.

**San Angelo was once named the Wool Capital of the World.

2007

The idea of painted fiberglass sheep began in 2007 when the Downtown San Angelo, Inc. promotions committee decided herding fiberglass ewes was easier than reorganizing the Miss Wool of Texas Pageant that had taken place 1952-72. Read more about the Miss Wool Pageant at TexasArchive.org.

Handbook of Texas Online, Escal F. Duke, "SAN ANGELO, TX," accessed June 21, 2019, <http://www.tshaonline.org/handbook/online/articles/hds01>.
